Dear Everett,

Well here I am again. Laying on an old carpet, in a cold garage, staring at the boxes of laundry detergent and wondering what the hell I'm doing here. Since when does clean walls, clean ceilings, clean cabinets and my Mother's "living a long time" become more important than me? Her only daughter - and she has no sons. Lately it seems like I'm at her all the time. I feel suffocated inside the house. I want to be free dammit and I guess that means getting the hell out of this place. Unfortunately that will leave my Mother in quite a bind. She depends on me to take care of her business for her while she travels. No, she doesn't "need" me to take care of things - but I do care about her properties and I doubt if someone who was being paid to do the things I do would give a damn. I was right in my last letter. You know, about how it's Nazi Germany 1932. Of course my imagination did get a little carried away but think about it. I'm a smasher (jewish) and you - a perfectionist (NAZI) - are persecuting. I accept your bad habit - why can't you accept mine? It started with taking

cigarette commercials off the air. No one paid close attention to that because AT THAT TIME there was a lot of internal strife going on in this country. But you know what Everett? This is not Germany. This is the United States of America and BY GOD if you take away my tobacco I'll BLOODY WELL grow my own and TALLY HO THE BRITISH ARE COMING. THE BRITISH ARE COMING. We got a roll of 100 25¢ stamps - envelopes - paper and the addresses - zip codes of ALL THE FUCKING GOVT OFFICES in this country right down the street at the local post offices and I'm sending out BOMBBS LETTER BOMBBS for Surgeon General, high Fucking muck muck.

The British are coming, the British are coming.

Have a nice day ☺

IN THE GARAGE

Here I am again & just finished about the fastest Easter supper on record with my Mother and her boyfriend. Didn't feel comfortable with them at all. Felt like they were OBSERVING what I ate and whether I drank anymore. Christ, I feel like I'm some kind of bug - you know, a specimen on a piece of glass. So how come I feel this way? I'm isolated out here. I'm lonely! I can't get to the phone when it rings - the answering machine is at best no one leaves a message - they just hang up. Maybe it was for me? Maybe it was "Hi Wonderful" or maybe it was just somebody selling something. I DON'T KNOW BECAUSE I'M STUCK OUT HERE IN THE DAMN GARAGE! I could go out in the backyard but I feel like people are watching me - I feel self-conscious out there. Yes, I know what you are thinking - so my cigarettes are more important to me than being in the house with my Mother & her boyfriend. YES DAMMIT THEY ARE! I enjoy smoking - it's one of the few pleasures I have. So how come you want to take them

b6
b7C

4/4/89

Mon 10/23/87 11:41:36

away from me. If lung cancer and emphysema are costing you money - then stop paying for it. Don't take it out on me. Personally I think all this 2nd hand smoke is just a "smoke" "screen". For what? I don't care & I don't give a flying fig! I want my cigarettes dammit and I want to be able to smoke around non-smokers without having to put up with a lot of bullshit. My mother gives me verbal bullshit constantly and I gotta take it because she is my mother - so how come she doesn't take my smoking because I am her daughter? Because of YOUR GODDAMN MEDIA.

BLITZ ABOUT YOUR GODDAMN
THEORY - CHICKENSHTT THEORY -

ABOUT second-hand smoke. Geez, Everett, I don't deny you pleasures and you've got lots of them - fame, fortune, power, romance? I've got NOTHIN' but my cigarettes! I'm mad about this and yes, I'm feeling sorry for myself - I have the right.

You friend ☺

[redacted] The following investigation was conducted by SA's [redacted] and [redacted] at Sacramento, California:

On June 22, 1989, [redacted] Nurse/Caretaker of a board care facility, a private home in a residential area, located at [redacted], telephone number [redacted], advised that [redacted] left there about three weeks ago and no longer resides at that facility, which is operated by Sacramento County. It was [redacted] belief that [redacted] took a "live-in" job somewhere in the Sacramento area near the [redacted] located near [redacted] and [redacted] in South Sacramento. [redacted] stated that all records relating to [redacted] treatment would be in the custody of her supervisor, [redacted], at another similar care facility in the same neighborhood. From [redacted] recollections, [redacted] had "wrecked her car" and was suicidal and had spent about a month in the University of California Davis Medical Center (UCDMC) after her car crash, during which time she had attempted suicide by taking all of her medicine in one dose. While at this facility, she was administered the drugs Lithium and Cogentin for her mood swings. [redacted] had quit smoking and seemed to get along with her fellow patients/residents at [redacted]. [redacted] had no idea where [redacted] was now living and working; and did not consider [redacted] to be violent or have the means to harm others.

Subsequent contact on June 22, 1989, with [redacted] [redacted], another mental health caretaker for the county, at telephone number [redacted]. [redacted] was informed of the FBI's interest in interviewing [redacted] and offered to cooperate and to inquire among [redacted] friends and fellow patients as to her present whereabouts. [redacted] also stated that [redacted] had only very recently gotten this "live-in" job. She had no records relating to [redacted] but stated she was adjusting well and was not violence-prone. [redacted] promised to call the FBI when she learned where [redacted] was staying.

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 3/14/90

[redacted], date of birth [redacted], was contacted at the office of the Federal Bureau of Investigation, 2800 Cottage Way, Sacramento, California. She was advised of the identity of the interviewing agents and the purpose of the interview and provided the following information:

She remembers writing the letters in question approximately one year or so ago. [redacted] explained she was diagnosed as a "manic depressive" personality and that at the time she wrote the letters she was in a manic state. She was being treated with a combination of prescription medications which have since been changed. She had been taking Lithium and an anti-depressant medication, Klonopin (phonetic). Since she did not respond well to that, her medication was changed to Desipramine. She is receiving continuing treatment as an out-patient at [redacted]
[redacted], Rancho Cordova, California.

[redacted] advised she sent out a lot of letters during that time period and most were, she admitted, rambling. She remembers writing one in which she mentioned the word "bomb". However, she used that word to mean that the information she would provide would be startling. She wanted to clarify that it was information she was referring to and not a threat of harm so she added the word "letter". [redacted] said she did not know at the time that explosive devices could be sent by letter. She realized that it was possible only after she read about the recent letter bombs in the newspaper. She emphasized that she had never and would never threaten anyone.

[redacted] said she realizes now that letters could be misinterpreted, but that at the time she wrote them, it was only a means of relating her ideas, not threats, to the individuals addressed or mentioned. She has not written any letters since that time with the exception of one to the Mayor of Sacramento commanding her on her stand on a local issue.

[redacted] acknowledged she is aware that there are laws prohibiting threats of harm to federal government officials and realizes the consequences of such threats. She repeated that she had no intention of threatening anyone with bodily harm.

Results of examination:

Q57 and Q58 have been associated through a search of the Anonymous Letter File with items of evidence submitted to the FBI Laboratory under the caption " [redacted]; C. Everette Koop, Surgeon General-Victim; Department of Health and Human Services; CCSCAKA; OO: WMFO".

It was determined that the questioned hand printing on Q57 and the upper case hand printing on Q58 was prepared by [redacted] Ki, whose known writing was previously submitted to this Laboratory by the Washington Metropolitan Field Office under the above WMFO case and assigned Laboratory number 90612025 D LL.

The white labels on Q57 were placed over the wording [redacted], Troy, New York 16180".

No watermarks, indented writings, or other physical characteristics which might indicate their immediate sources were observed during the examinations of Q57 and Q58.

You will be advised separately of the results of the latent fingerprint examination and the disposition of Q57 and Q58. Appropriate photographs have been made.
